Summary

What is this document about?

This policy document sets out the University's tuition fee discounts, scholarships and awards that are available to specific students. It explains if students need to apply, or if the discounts, scholarships and awards will be automatically awarded to students. The policy may direct students to the University's web pages for more information and eligibility on discount schemes.

Who is this for?

This document is applicable to all students who pay tuition fees; these being self-paying students, sponsored students and students whose loans are being paid by the Student Loans Company (SLC).

The University offers a range of tuition fee discounts, scholarships and awards schemes to students which are explained in this document. Only one of the asterisked discounts in this document can be claimed against each fee.

Where * is denoted, only one discount can be applied to a tuition fee per academic year. If eligible for multiple discounts the discount of the highest value will be applied.

Where ** is denoted, Postgraduate and Postgraduate Research students eligible for the EU scholarship will be able to combine this with the Alumni Discount.

How does the University check this is followed?

The officer responsible for maintaining the currency of the policy is the Director of Academic Services or delegated nominee. Academic Services implements the policy. The policy is monitored by the Income Team, who ensures that the policy is adhered to, is transparent and consistently applied. Academic Services and the Income Team will investigate and respond to queries in respect of tuition fee discount queries. Disputes will be investigated by an independent Tuition Fee Appeals Panel as explained in the Tuition Fee Procedures for Applicants and Students 2025/26.
